

The radio Station K-LOVE (90.3 FM) services the area where I live, including remote areas in mountain Cities via translator. If (LPFM) was to replace (FM) our area would loose the valuable ministry of K-LOVE. This radio station provides good wholsum values to all that listen, including teens. Thier are no other stations that provide this type of service. Please do not replace (FM) with (LPFM). Thank you,
Gary & Tammy Harper
